Maintenance

Storage Information

After cleaning, store the gloves in a cool, dry and well ventilated place

Care Instructions

To ensure optimum protection, Chainex2000 gloves should be kept in perfect condition for use.

At least once a day Chainex gloves should be scrubbed vigorously at least once a day with hot soapy water (50°C) or in a mixture of hot water (50°C) and detergent.

Rinsing at 82°C minimum. Desinfection with an approved product.

They can also be cleaned in a washing machine.

Do not clean chainmail protective gloves and metal chainmail protective gloves by knocking them against a hard surface.

Any glove showing signs of abnormal wear or missing chainmail must be replaced immediately by a glove in good condition.

Only the manufacturer is authorised to repair defective gloves or to declare a glove beyond repair.
